

SOLEX 022 SILICON LUBRICANT SPRAY

Solex 022 is the most effective silicone lubricant ever developed. This greaseless lubricant has exceptional non-stick properties that lubricates and preserves all sliding surfaces and prevents them from binding and squeaking.

Solex 022 leaves a clear thin film on treated materials and will protect them against corrosion, heat, cold, moisture and weathering. The high silicone contents of Solex 022 are non-flammable, non-staining and odorless.

TECHNICAL SPECIFICATIONS

Capacity	420 ml
Classification	aerosol
General Appearance	clear liquid
Flammability	non-flammable
Specific gravity	0.85
Vapor pressure @ 21 °C	3.8 kgs

AREAS OF APPLICATIONS

- ❖ Lubricates door locks, conveyors, belts, zippers, window channels, drawers and all moving parts.
- ❖ Forms a protective, flexible shield on rubber parts, leathers, weather stripping and automotive window moldings.
- ❖ Preserves and lubricates threads of studs, bolts and screws and can tighten the bolt to ensure greater holding power.
- ❖ Improves antenna radio reception.
- ❖ Protects power tools and cutting edges from moisture.
